o **Comments and extended discussion**

This week was spent doing a lot of research on the ExcelJS option and getting back up and running from last semester. We had a few changes to make to allow all users to be at the same point in development. Not everyone's environments are perfectly configured just yet, but very close.

o **Plan for coming week**
- Implement the Check-In/Check-Out API
- Configure our database and server space
- Implement ExcelJS
